The present content analysis study was conducted to provide a quantitative review of flight attendant comments provided on the congressionally mandated survey of flight attendant field operations that was conducted in 2008. This report can be used as a supplement to interpret the published survey results (Aversa et al., 2009b). Two hundred surveys were randomly selected for each type of operation and level of seniority. A total of 1,800 surveys with comments were content analyzed (936 paper, 864 online). Eight broad comment categories were identified, including: scheduling, health, airline and airline policy, job performance and satisfaction, meals, survey, workload, and break facilities.
