Brand New Book ***** Print on Demand *****.Excerpt from Rates and Taxes: As Affecting Agriculture This volume is based on the Gilbey Lectures delivered in the University of Cambridge in the May Term, 1905. Although the subject is treated with special reference to agriculture, the main object is to consider the principles which should be applied in the reform of English local taxation. The Report of the recent Royal Commission on Local Taxation has shown conclusively that the present system is in urgent need of reform, and the evils are so deep-seated that a critical examination of the foundations is a necessary preliminary to any thorough amendment. Such a preliminary inquiry as is here attempted involves an examination of the origins of the system. We must consider what were the principles or ideas intended to be applied, and how far the application was modified by practical difficulties and historical accidents.
